

Curriculum Committee Agenda
Thursday, March 1, 2018
12:30-2:30
TEC 144

I. Agenda and Minutes

Approval of Agenda for Thursday, March 1, 2018

Approval of Minutes for Tuesday, December 5, 2017 Refrigeration & A/C – New course.

3/1803 – EGL 120 Technical Communication – Increased units from 2 to 3 to
y with the oral communication requirement of the CSU General Education
Requirements.

Registrar's Office required that the CORe be approved by Friday, February 9
was to be ready for Fall 2018 registration the final vote by voting
was 8-Yes/1-No. Three members did not vote. The following statement was sent
in reply to the request of an email vote

s,

objectfully object to this mode of approving/disapproving such a sweeping change
a. Having this thrust upon us without any opportunity for the related/non
departments to hear the broader picture is just plain wrong. While I appreciate the
to get the Fall schedule underway, this is no excuse for shorting due
in fact, such rush jobs are exactly what lead to problems like Refrigeration being
from ME in the first place.

Next, while I certainly understand that this proposed change is part of the ME department's efforts to address the aforementioned GE requirements, I feel that removing units from these particular ME courses (especially ME460) does two bad things: 1) it weakens what are held to be vital skill sets in our ME graduates; 2) it penalizes (see above) those ME students who are not in the licensing program.

Basically, I'm saying that none of these votes should have come in until such time as due process has been followed – i.e. representatives on the committee whose departments are not directly affected could hear all sides. ~~Infact~~, votes have now been cast without a shred of discussion. This is wrong and I cry foul.

Sorry, but....

Respectfully,
Scott

III. New Business

CCR 03/18-04 – EGL 309 British Literature of the Sea– New course.
