

Continuing through the document, reviewing specific content and the suggested revisions. Some discussion, but no modifications requiring a vote.

Added language quoting the C Office on how this plan does *not* apply to CSU GE. *Secretary Fairbanks motioned to approve the resolution, Senator Luce seconded. Resolution approved unanimously.*

Dean Steve Browne added that this is not a new issue. Every year that the TSGB goes into dry-dock (every 5 years) this comes up. He noted that the last dry-dock year had a few *more* students needing billets compared to this year. He also said that students often self-select a bit preferring to catch up academically or do family- and circumstances will do the same thing this time around.

There are some complications this time COVID has caused a back-up (some students deferred despite having the option for cruise in the last summers).

Lastly, o the last dry-dock year.

## 10. AL\$ and The Library

Laurie Borchard is presenting. AL\$ course stipends will be available. The initial application is simple, and applications will be solicited very soon.

## 11. Update from the Research and Innovation Office (RIO)

Chris Brown
