

Procedures:

Hazard Identification, Risk Assessment & Control Table (HIRAC) process is used to identify, assess and risk-rank all Cal Maritime related activities in order to ensure that Cal Maritime programs, activities and work controls are appropriately addressing risks.

The HIRAC assessment will be reviewed annually, when new activities are introduced that create or modify assessed risks, and when worksite observations or accident/incident experience identify previously unrecognized or incorrectly categorized risks.

Any individual at any level of the institution may use this guide to assess and plan responses to risks and opportunities in their area. For the most part, however, risk assessments at Cal Maritime
